Dear Butch:

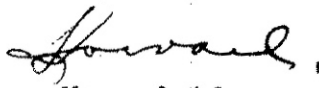

Things are looking pretty bleak for the Sinclair crowd.

I never thought they would play into my hands that easily. They gave me a bigger break than I could have ever asked for.

That little Ottawa beauty, Nancy Gelber has been a tremendous help. Many months ago she wrote to me complaining about Sinclair as a co-opted leader. She filled in details that have proved correct.

I think we should get together soon and discuss those urgent issues, which we mentioned on the phone.

more later.
